

OFFICE OF THE ATTORNEY GENERAL
STATE OF ILLINOIS

Lisa Madigan
ATTORNEY GENERAL

April 24, 2009

Dear Crestwood Resident:

Over the past week, many concerned residents have contacted my office about this very serious public health and safety issue. I share your concerns and have opened an enforcement investigation against the Village of Crestwood and an investigation relating to the possible sources of contamination of the municipal water well. A safe water supply is critical to the health of every person in Illinois. Our goal is to enforce the laws to protect the water supply and the people who use it, and we are doing everything we can to meet that goal.

If you have any other questions about our office's work in this area or if you would like to share any information that might be relevant to this matter, please do not hesitate to call Assistant Attorney General Paula Wheeler at 312-814-1511, or Assistant Attorney General Steve Sylvester at 312-814-2087. We welcome your questions, comments and concerns.

If you have any specific questions about exposure to possibly contaminated water, possible illnesses or other public health-related questions, we also encourage you to call the Illinois Department of Public Health, Environmental Health Division, at 217-782-5830.

I want to thank all of the residents who have contacted my office with concerns or to share information on this extremely important public health and safety issue.

Very truly yours,

A handwritten signature in cursive script that reads "Lisa Madigan".
